

INDEX.

A.

Abortion; criminal, 133; placenta retained in, 219.
 Abyssinian expedition, mortality of, 382.
 Acid, carbolic: 507; and iodine, 72; in veterinary medicine, 80; imprudent application of, 122; cases treated by, 145; in burns, 233; in typhoid fever, 301; in conjunctivitis, 308; as a disinfectant, 187; in treatment of warts, pityriasis versicolor, and favus, 426; death from, 437; use of, in amputation of fingers, 454; as a poison, 489, 509.
 Aconite root, tincture of, poisoning from, 347.
 Addison's disease, case of, 20, 156.
 Adulteration of wines, 92.
 After-birth, treatment of, 110.
 Albumen; pathological and physiological relations of, 67; fat and tubercle, pathological observations on, 353.
 Album nuxia, a new test in, 433.
 Albuminurial retinitis, 28.
 Alcohol: in treatment of pneumonia, 172; defence of, 176.
 Aloe, the American, 348.
 Alum water, iron, and iodine, 466.
 Amputation; and fracture of leg, 121; of fingers, 454.
 Anæsthetics, 53.
 Anatomical law, 449.
 Ancestors, our, 411.
 Anecdote of Hyatt, 447.
 Aneurism; carotid, false, circumscribed, 374; popliteal, ether spray in, 382; spontaneous cure of, 460; in California, 496.
 Aneurismal varix treated successfully by obliteration of vein, 66.
 Anilice, 239; poisoning, 139; action of, 237.
 Animals and men, diseases common to, 480.
 Ankle-joint, strumous synovitis of, 317.
 Antidote, turpentine as, to phosphorus, 307, 438.
 Antiquity of man in America, 486.
 Anus, fistula in, 99.
 Aortic anomaly, 20.
 Aphonia from disordered volition, 151.
 Apoplexy, cases of, 335.
 Apoplectic retinitis, 26.
 Apparatus for treatment of fracture of clavicle, 1, 274.
 Aqua caloris as a diuretic, 257.
 Archeological discoveries in the region of Mt. Ararat, 486.
 Arkansas, hot springs of, 408.
 Arm, traumatic paralysis of, treated with strychnia and chloroform, 15.
 Arsenic, uses of, 75.
 Ascarides, treatment of, 33, 72.
 Asthma, new theory of its pathology, 452.
 Atmosphere, organic germs of, 367.
 Atropia in poisoning by opium, 369.
 Auscultation of the œsophagus, 257.
 Autopsy, importance of, 520.

B.

Babies, big, 388.
 Baby, the blue, 137.
 Ball; extraction of, lodged between innominata and trachea, 152; iron, a nucleus of concretion removed from bladder, 255.
 Banning's braces, etc., 502.
 BARTHOLOW v. BLACKMAN, 287.
 Bass fish poisoned by eating locusts, 59.
 Bath; novel style of, 159. calomel, 177.
 Bathing, directions for, 195.
 Baths; free public, in Boston, 180; of hot sand, 520.
 Battery, F. A. M. S.'s thermal, 328.
 Bean, Tonka, in pertussis, 361.
 "Beautiful forever," 411.
 Belladonna; conium, and hyoscyamus, action of, 14; anti-glaucotic properties of, 125; treatment of poisoning by large doses, 444.
 Births and deaths in France, statistics of, 310.
 Bite; alleged cure of snake, 173; of a serpent, 259; of a copperhead, 326.
 Bites, human *verruca* dog, 256.
 Bladder; stone in, 7; operation for hernia of, 69; removal of concretion in, with iron ball for nucleus, 255; paralysis of, 327.
 Blindness, color, 326.
 Bloodletting in inflammation a doubtful and injurious remedy, 370.

Bodkin, removal of, from a young lady's limb, 260.
 Bone, jaw cystic tumor of, 338.
 Bones, reproduction of maxillary, 23.
 Boys who smoke, 310.
 Brain; work, 257; a parasite in, 339.
 Bread; Liebig's, 177; making, 486.
 Bright's disease, 319.
 British Med. Association, 196.
 BROCA, Dr. PAUL, 449.
 Bromates, the, 123.
 Bronchocele, 338.
 Bronchorrhœa, treatment by tar water, 76.
 Bursa of patella ligament, 337.
 Burns; treatment of cicatrix after, 88; carbolic acid in, 233.
 Bursa of patella ligament, 337.

C.

Cæsarian section, 38; do. in which abdominal parietes were divided by Vienna paste, 245.
 Calentura fever of Nicaragua in its relations to yellow fever, 391, 413.
 California, aneurism in, 496.
 Calomel bath, 177.
 Cancer, open, 212.
 Carbolic acid; (see acid, carbolic.)
 Carnis extractum, 479.
 Cataract; and artificial pupil, 147; report on 100 cases operated on by linear section in the border of the sclerotic, 189.
 Cattle disease; 120, 139, 199; an alleged preservative against, 191.
 Cephalotripleix intracranienne, 435.
 Cerium, 159.
 Ceylon, epidemic in, 215.
 CHARLOTTE, the Princess, 139.
 Cheek parasite on, 79.
 Chloric ether, 405.
 Chloroform; to prevent death from, 59; death from administered for amputation of finger, 192; and strychnia in treatment of paralysis of right arm 151; poisoning by, treatment of, 299; how does it destroy life, 333; preservation of, 208; death from, 443; action of, 445; to spine in spasmodic disorders, 461.
 Cholera; official inquiry, 38; Pettenkoffer's investigations into origin of, 51; and yellow fever, 95; attempts to check by French gov., 120; preservation against, 134; in the Barbary coast, 160; in India, 239; in Prussia, 311.
 Cholera, infantum, 399.
 Choleraic disease in Europe, 329.
 Chorea, sulphate of magnesia in, 87.
 Choroid, ophthalmoscopic disease of, 185.
 Cicada, 179. (See also Locust.)
 Cicatrix, of burn, treatment of, 88.
 Cincinnati, mortality of, 119.
 Clavicle, apparatus for treatment of fracture of, 1.
 Clerical surgeon, 465.
 Climate of Minnesota, 448.
 Clinic hall, a new in Penna. Hospital, 134.
 Coal oil in phthisis, 465.
 Cobra poison, action and treatment of, 175.
 Cod-liver oil; adulteration and administration of, 70; calachan oil, a substitute for, 107.
 Collin's disinfectant powder, 76.
 Col-r blindness, 326.
 COMPERDIUM, half yearly, 18.
 Conception, an electrical phenomenon, 104.
 Conium, belladonna, and hyoscyamus, 14.
 Conjunctivitis; new mode of treating, 34; treatment of, 98; carbolic acid in treatment of, 308.
 Consanguineous marriages, 438.
 Consumption, curability of, 188.
 Convention, Geneva, 308.
 Convulsions; compression of carotids in, 321; puerperal, 371, 421.
 Corn, extraction of grain from trachea, 145.
 Copperhead, bite of, 326.
 Cramp of sole of foot, 430.
 Cretinism, 466.
 Croupous inflammations, artificial production and specificity of, 153.
 Curara; 18; cynoglossom officinale, analogous to, 153.
 Cystic duct, stricture of with obstruction, 60.
 Cystitis, 456.

INDEX.

A.

Abortion; criminal, 133; placenta retained in, 219.
 Abyssinian expedition, mortality of, 382.
 Acid, carbolic: 507; and iodine, 72; in veterinary medicine, 80; imprudent application of, 122; cases treated by, 145; in burns, 233; in typhoid fever, 301; in conjunctivitis, 308; as a disinfectant, 187; in treatment of warts, pityriasis versicolor, and favus, 426; death from, 437; use of, in amputation of fingers, 454; as a poison, 489, 509.
 Aconite root, tincture of, poisoning from, 347.
 Addison's disease, case of, 20, 156.
 Adulteration of wines, 92.
 After-birth, treatment of, 110.
 Albumen; pathological and physiological relations of, 67; fat and tubercle, pathological observations on, 353.
 Album nuxia, a new test in, 433.
 Albuminurial retinitis, 28.
 Alcohol: in treatment of pneumonia, 172; defence of, 176.
 Aloe, the American, 348.
 Alum water, iron, and iodine, 466.
 Amputation; and fracture of leg, 121; of fingers, 454.
 Anæsthetics, 53.
 Anatomical law, 449.
 Ancestors, our, 411.
 Anecdote of Hyatt, 447.
 Aneurism; carotid, false, circumscribed, 374; popliteal, ether spray in, 382; spontaneous cure of, 460; in California, 496.
 Aneurismal varix treated successfully by obliteration of vein, 66.
 Anilice, 239; poisoning, 139; action of, 237.
 Animals and men, diseases common to, 480.
 Ankle-joint, strumous synovitis of, 317.
 Antidote, turpentine as, to phosphorus, 307, 438.
 Antiquity of man in America, 486.
 Anus, fistula in, 99.
 Aortic anomaly, 20.
 Aphonia from disordered volition, 151.
 Apoplexy, cases of, 335.
 Apoplectic retinitis, 26.
 Apparatus for treatment of fracture of clavicle, 1, 274.
 Aqua calais as a diuretic, 257.
 Archeological discoveries in the region of Mt. Ararat, 486.
 Arkansas, hot springs of, 408.
 Arm, traumatic paralysis of, treated with strychnia and chloroform, 15.
 Arsenic, uses of, 75.
 Ascariæ, treatment of, 33, 72.
 Asthma, new theory of its pathology, 452.
 Atmosphere, organic germs of, 367.
 Atropia in poisoning by opium, 369.
 Auscultation of the œsophagus, 257.
 Autopsy, importance of, 520.

B.

Babies, big, 388.
 Baby, the blue, 137.
 Ball; extraction of, lodged between innominata and trachea, 152; iron, a nucleus of concretion removed from bladder, 255.
 Banning's braces, etc., 502.
 BARTHOLOW v. BLACKMAN, 287.
 Bass fish poisoned by eating locusts, 59.
 Bath; novel style of, 159. calomel, 177.
 Bathing, directions for, 195.
 Baths; free public, in Boston, 180; of hot sand, 520.
 Battery, F. A. M. S. S. thermal, 328.
 Bean, Tonka, in pertussis, 361.
 "Beautiful forever," 411.
 Belladonna; conium, and hyoscyamus, action of, 14; anti-glaucotic properties of, 125; treatment of poisoning by large doses, 444.
 Births and deaths in France, statistics of, 310.
 Bite; alleged cure of snake, 173; of a serpent, 259; of a copperhead, 326.
 Bites, human versus dog, 256.
 Bladder; stone in, 7; operation for hernia of, 69; removal of concretion in, with iron ball for nucleus, 255; paralysis of, 327.
 Blindness, color, 326.
 Bloodletting in inflammation a doubtful and injurious remedy, 370.

Bodkin, removal of, from a young lady's limb, 260.
 Bone, jaw cystic tumor of, 338.
 Bones, reproduction of maxillary, 23.
 Boys who smoke, 310.
 Brain; work, 257; a parasite in, 339.
 Bread; Liebig's, 177; making, 486.
 Bright's disease, 319.
 British Med. Association, 196.
 BROCA, Dr. PAUL, 449.
 Bromates, the, 123.
 Bronchocele, 338.
 Bronchorrhœa, treatment by tar water, 76.
 Bursa of patella ligament, 337.
 Burns; treatment of cicatrix after, 88; carbolic acid in, 233.
 Bursa of patella ligament, 337.

C.

Cæsarian section, 38; do. in which abdominal parietes were divided by Vienna paste, 245.
 Calentura fever of Nicaragua in its relations to yellow fever, 391, 413.
 California, aneurism in, 496.
 Calomel bath, 177.
 Cancer, open, 212.
 Carbolic acid; (see acid, carbolic.)
 Carnis extractum, 479.
 Cataract; and artificial pupil, 147; report on 100 cases operated on by linear section in the border of the sclerotic, 189.
 Cattle disease; 120, 139, 199; an alleged preservative against, 191.
 Cephalotripleix intracranienne, 435.
 Cerium, 159.
 Ceylon, epidemic in, 215.
 CHARLOTTE, the Princess, 139.
 Cheek parasite on, 79.
 Chloric ether, 405.
 Chloroform; to prevent death from, 59; death from administered for amputation of finger, 192; and strychnia in treatment of paralysis of right arm 151; poisoning by, treatment of, 299; how does it destroy life, 333; preservation of, 208; death from, 443; action of, 445; to spine in spasmodic disorders, 461.
 Cholera; official inquiry, 38; Pettenkoffer's investigations into origin of, 51; and yellow fever, 95; attempts to check by French gov., 120; preservation against, 134; in the Barbary coast, 160; in India, 239; in Prussia, 311.
 Cholera, infantum, 399.
 Choleraic disease in Europe, 329.
 Chorea, sulphate of magnesia in, 87.
 Choroid, ophthalmoscopic disease of, 185.
 Cicada, 179. (See also Locust.)
 Cicatrix, of burn, treatment of, 88.
 Cincinnati, mortality of, 119.
 Clavicle, apparatus for treatment of fracture of, 1.
 Clerical surgeon, 465.
 Climate of Minnesota, 448.
 Clinic hall, a new in Penna. Hospital, 134.
 Coal oil in phthisis, 465.
 Cobra poison, action and treatment of, 175.
 Cod-liver oil; adulteration and administration of, 70; calachan oil, a substitute for, 107.
 Collin's disinfectant powder, 76.
 Colic blindness, 326.
 COMPERDIUM, half yearly, 18.
 Conception, an electrical phenomenon, 104.
 Conium, belladonna, and hyoscyamus, 14.
 Conjunctivitis; new mode of treating, 34; treatment of, 98; carbolic acid in treatment of, 308.
 Consanguineous marriages, 438.
 Consumption, curability of, 188.
 Convention, Geneva, 308.
 Convulsions; compression of carotids in, 321; puerperal, 371, 421.
 Corn, extraction of grain from trachea, 145.
 Copperhead, bite of, 326.
 Cramp of sole of foot, 430.
 Cretinism, 466.
 Croupous inflammations, artificial production and specificity of, 153.
 Curara; 18; cynoglossom officinale, analogous to, 153.
 Cystic duct, stricture of with obstruction, 60.
 Cystitis, 456.

D.

- Dahlia: narcotic property of, 160.
Dandruff, 56.
Dakota, medical aspects of, 227.
Death: from hæmoptysis 9; from chloroform, 59; from morphia, 75; from sulphate of magensia, 79; from sunstroke, 134; sudden, 136 335; from Winslow's soothing syrup, 259; from podophyllin, 308; and births in France, statistics of, 311; from baptism by immersion, 384; from carbolic acid, 437; from hypodermic injections, 439.
Deformity and symmetry, spinal, 241.
Dental: remarkable operations, 118; school in Harvard college, 138.
Dent's, female, 76.
Deodorizers and disinfectants, 384.
Diagnosis: instrumental, 4, 26, 43, 161, 185, 201, 241, 291, 330, 431, 468.
Diarrhœa: lecture on, 81, 101; of infant's pepsin in, 249; remarks on treatment of, 352.
Digitalis, effect of on the mind, 195.
Dipsomaniacs, 410.
Disaster, terrible in Maryland, 119.
Disease: the cattle, 120, 139, 199; alleged preservative against, 191.
Disease: organisms as the cause of, 321; natural history of, 280.
Discoveries of Captain Hall in relation to Sir John Franklin, 289.
Disinfectant, carbolic acid as a, 387.
Disinfectants and deodorizers, 356.
Disinfecting powder, Collin's, for foul apartments, 76.
Distoma hepaticum in sheep, 149.
Diuretic, aqua-calcis as a, 257.
Dislocation: of humerus, of four months standing—successful reduction, 226; of hip, unsuccessful attempt at reduction death—post-mortem, 492; of patella vertically, 508.
"Don't let it happen again," 41.
Doctors, two hundred dollar, 464.
Drug inspection, 342.
Dye-stuff poisonous, 387.
Dysentery: chloride of sodium in, 39; ipæacuanha in, 327; epidemic of, 455; chlorate of potash in, 519.
Dysmenorrhœa: bromide of potassium in, 485.
Dyspepsia, sulphite of soda in, 156.

E.

- Ear: accumulation of wax in, 318; foreign bodies in, 318; on syringing the, 436.
Earth closets, in the British Parliament, 497.
Eclamsia gravidarum—Triplets, death, 519.
Ecraseur forceps, for the removal of uterine fibroids, 221.

Human monster, an account of, 126.
Human subject, glanders in, 477.
Humerus, dislocation of four months standing—successful reduction, 226.
Hunger and typhus, 104.
Hybridity, 502.
Hydrarthrosis of knee, 297, 317.
Hydrocephalus: case of—recovery, 158; and hour-glass contraction, adherent placenta, followed by puerperal peritonitis—recovery, 484.
Hydrophobia, 18, 99, 153; a popular medical error, 59; in Paris, 177; vesicles of, 353.
Hygiene of schools, 19, 58, 194, shall it be taught by newspapers, 225, 347; of Rice culture, 329.
Hysteria affecting male, 309.
Hypodermic syringe, 134; injections, 152; medication in recte, 438; injection, death from, 439.
Hyposulphate of soda, 348.
Hyoscyamus, belladonna and conium, 14.

I.

Toe to spine in menorrhagia, 141.
Idiocy, 508.
Ignorance in Medical Profession, 205.
Immoral publications, 404.
Impressions, transmission of, from mother to fetus, 287, 307, 350.
Infant mortality, 37, 38, 59, 134.
Infantile: erysipelas, treatment of, 92; syphilis, heredity, 317.
Infants, pepsine in diarrhoea of, 249.
Injection, hypodermic, death from, 438.
Injections, nutritious, life prolonged 59 days by, 459.
Insane man, murder by, 325.
Insane: idiot and inebriate, 19; Connecticut Hospital for, 95; a new hospital for, in Pennsylvania, 194.
Insanity: in Great Britain, 119; certificates of—the Merritt case, 193.
Insect: ventilation, 373; sugar, 557.
Insecticides, 156.
Inspection of meat, 217.
Institutions, useful, 94.
Instrumental diagnosis, 4, 26, 43, 161, 185, 201, 241, 291, 330, 431, 468.
Instruments, obstetrical, 127.
Interments, to prevent premature 194, 235.
Iodine: and carbolic acid, 72; and iron alum water, 466.
Ipecacuanha: administration of, 307; in dysentery, 327.
Is it true? 74.

J.

Journal: a new, 130; a veterinary needed, 284.
Journalism, medical, in Indiana, 284.
Jaw-bone, cystic tumor of, 338.

K.

Knee, hydrarthrosis of, 297, 317.
Knee-joint, incised wound of, recovery, 506.

L.

Labor during sleep, 92.
Lachrymalis, fistula, 148.
Lactation by a woman 60 years old, 389.
Lady, an American, a medical student in Paris, 429.
Lænnec, honors to, 308.
Language, the faculty of, 252.
Larceny, literary, 130.
Larynx, fracture of, 150.
Leeches in Paris, 62.
Leg: fracture and amputation of, 121; paralysis of, from retroversion of uterus, 129.
LEISIG'S bread, 177.
"Lettre de cachet", Atlantic Monthly, 389.
Life: how does chloroform destroy, 393; prolonged 59 days by nutritious injections alone, 459.
Ligament, patella, bursa of, 337; description of a new, 405.
Ligature, a caustic, 217.
Lightning, surgery by, 448.
Lipoma, extirpation of, 149.
Literature, medical, 41.
Lithotomy, 207, 275, 296.
Liquefying laughing gas, 110.
Living tissue, action of Phosphorus on, 73.
Locust: bass-fish poisoned by eating, 59; are they poisonous? 95, 179.
Longevity: 115; prize for work on, 104.
Lute, a new, for laboratory, 380.
Lupuline, a new preparation of, 379, 479.
Luxation: of both patella, 260; manipulation in, 409.
Lying-in Wards, 19.

M.

Magnesia, death from sulphate of, 79.
Malposition of female urethra, 71.
Malpractice: sentence for, 62; suit for, 449.
Mania: puerperal treated by bromide of potassium, 77; homicidal, remarkable case of, 495.
Manganese, sulphate of, in cholera, 87.
Manipulation in luxation, 409.
Man's antiquity in America, 483.
Marriage, consanguineous, 438.
MARSDEN, Dr., 114.
Maternal impressions, 287, 307, 359.
Mauritius, epidemic in, 217.
Maxillary bones, reproduction of, 23.
Measures and weights, metric, 134.
Meat: Mr. BERON on, 134; inspection of, 217; discussion of, in Great Britain, 239.
Medical: prize question, Fiske fund, 37; attendance enforced in Prussia, 38; literature, 41; staff, U. S. A., 59, 116; indigenous flora, 85; attendance obligatory, 117; profession, ignorance of, 205; aspect of Dakota, 227; rushes, 432; men, prosecution of, 301; instruction, 326; students in London this winter, 386; an American lady student in Paris, 429; advertising, monopoly of, 447; officers, 502.
Medical Colleges: commencements of, 21; medicine and surgery, of Cincinnati, Ohio, 21; in Syria, 99; University of Michigan, 156, 157; in Nashville: Atlanta, Ga., imbroiglio, 195; Starling, Ohio, 359; of New York, 447; of Detroit, 502.

MEDICAL SOCIETIES:

Academy of Medicine, New York:

Discussion: on repetition of prescriptions by druggists without authority of physician, 11; annual meeting, 475, 497.

Vermont State, 31, 376.
Maine State, 32.
Harford co., Md., 33, 120, 188.
Sullivan co., N. Y., 33.
Clark co., Ill., 87, 139.
New Hampshire State, 99.
Osage co., N. Y., 118.
British Med. Association, 168.
Baltimore Med. Association: discussions: tetanus, pur-Bright's disease, 319; scari-tina, 339; cystitis, 459; on purulent ophthalmia, 515.
Dearborn co., Ind., 248.
Academy of Medicine, Cincinnati, Ohio, 196, 248.
Iowa State University, 287.
New York co., 328.
Chemung co., N. Y., 354.

Philadelphia eo.: discussion: puerperal convulsions, 421.

East River Association, N. Y.: Election of officers—repetition of prescriptions, 473.

Medicine: value of, 124; a pocket, case for active physicians, 223; proprietary, 246; patent, in England, 507.
Medico legal queries, 444.
MIGES, Prof., introductory, 359.
Men and animals, diseases common to, 480.
Meningitis, spinal, 29.
Menorrhagia, ice to spine in, 141.
MERRITT cave, 258.
Meteoric stones from Mexico, 180.
Microscope; Craik's, 256; a new, 387.
Midwifery, a rare case of, 84.
Midwife for obstetric cases, 120.
Mind, effect of digitalis on, 195.
Minnesota, climate of, 448.
Morning sickness, bromide of potassium in, 211.
Morphia, death by, 75.
MORRISON'S pills, 311.
Mortality: infantile, 37, 38, 59, 134; in Cincinnati, 119; of Abyssinian expedition, 382.
Mummy, Peruvian, 290.
Murder; of Dr. BRAMAN, U. S. A., 220; by an insane man, 325.
Muscle, pharyngo palatine in man, 152.
Muscular rheumatism, 357.

N.

Nævus, treatment of, 212; 513.
Nasal therapeutics, 56.
Navel, hemorrhage from, 179.
Navv news and changes, 43, 99, 140, 180, 199, 200, 312, 329, 368, 389, 412, 460, 522.
Necrosis and exfoliation of femur, 61.
NELATON, Prof., resignation of, 257.
Nerves, recovery after severe injury to, 153.
Nervous; attacks, singular, 219; disorder, obscure, 521.
Neuralsia—ergot of rye in, 377; sulphate of nickel in, 481.
Nickel, sulphate of, in neuralgia, 481.
Nitrous oxide, 451.
Nervous disorder, obscure, 521.
Notes on Books: 14, 34, 57, 73, 92, 112, 130, 154, 192, 214, 259, 282, 302, 323, 343, 357, 380, 406, 426, 439, 481, 488, 499.
Nourishment by enema, 405.
Nurses, to educate, 467.
Nutritive enemata, 115.
Nutritious injections, life prolonged by, 459.

O.

OBITUARIES:

Dr. Thomas C. Brinsmade, 22; P. A. Dubowitzky, 41; Nathan Shoemaker, 304; Wm. T. G. Morton, 100; D. Gilbert, 120; M. B. de Perthes, 199; John Hay, 199; Prof. Schenkein, 337; Samuel Shantz, J. Coates, 240.
Dr. House, 260; Walter Walker, 289; R. W. Stockton, 330; Francis H. Ramsbotham; Rufus Bicknell, 368; Wm. Bird Harepath, 390; James Robertson, 412; Dr. Posner, 412; Antoine Clot Bey, 430; Frederick Wolfe, 468; Henry Wheaton Rivers, 488.

Obstetrical: instruments, 127; an anomalous case, 237; an unusual case, 505.
Obstetrics, midwives for, 129.
Oesophagus, auscultation of the, 257.
Oil: coal, in phthisis, 465; cod-liver, adulteration and administration of, 70; oulanchan, as a substitute for, 107; Fougere's, 347.
Olecranon, fractures of, 170.
Ophthalmia: purulent and gonorrheal, pressure in treatment of, 253; purulent, discussion on, 515.
Ophthalmoscopic character of disease of retina, 161, 186, 201, 515.
Opium: poisoning by, 136; atropia in, 369; East Indian, 429; poisoning from very large doses, and treatment, 444.
Organisms as the cause of disease, 321.
Osteo-sarcomatous tumor, operation for removal of, 351.
Os and cervix uteri, ulceration of, and sympathetic disorders, 469.
Oulanchan oil, a substitute for cod-liver, 107.
Outrage, another, 287.
Ovarian: tumor; spontaneous cure of, 172; spontaneous rupture and cure, 173; operation, method of dealing with short and thick pedicle, 397.
Ovulation, early effort at, 61.
Oxide, nitrous, 451.
Oxygen, therapeutic value of, 322.
Ozone; 232; manufacture of, 127.

P.

Palsy, writers' in which electricity was used with success, 231.
PANCOAST, Prof., reception of, in Philadelphia, 362.
Pancreas, wound of, 478.
Paracentesis thoracis, 282.
Panser; hangings, poisonous, 75; mills and public health, 213; atypic, 233.
Paralysis: of right arm, treated with applications of strychnia and chloroform, 151; of leg from retroversion of uterus, 129; of bladder, 327.
Parasite; of cheek, 79; of brain, 339.
Paris, leeches in, 62.
Parker, Dr., 467.
Parotid gland, extirpation of the right, 163.
Patella, ligament, bursa of, 337; dislocation of, vertically, 508.
Patella, luxation of both of long standing, 250.
Pathological observations on relations of tubercle, albumen and fat, 353.
Pathology of asthma, a new theory, 452.
Pedicles, short and thick, method of dealing with in ovarian operations, 396.
PETICOLA, Dr. Arthur, 466.
Permanganate of potash, 357.
Peritonitis; caused by laceration of uterus by sound, 128; circumscribed from attempts at the taxis, 397.
Persecution, religious, in 19th century, 55.
Pertussis, tonka bean in, 361.
Pelvic hematocoele, 313.
Pessary in Diarrhoea of infants, 249.
Pessary, the globe, 348.
Pettenkofer, investigations into origin of cholera, 51.
Pharmaceutical Association, 156; preparations, 443.
Pharyngo-palatine muscle in man, 152.
Phimosis, treatment by dilatation, 117; stimulating vesical disease, 299; syphilitic, 505.
Phosphorus, action on living tissue, 73; turpentine as an antidote, 307, 438; absorption of, 438.
Phthisis pulmonalis, 465; new and effective method of treating, 91; coal oil in, 465.
Physician; and street cars, 18; missionary,—what has he done, 133; accident to, 328; the female question, 367; mutual aid society, 449; established, honorarium of, 521.
Physical system, correlation of the various parts, 411.
Physiological and pathological relations of albumen, 67.
Physical system, correlation of various parts, 411.
Pills, preparation of quinine, 238; Morrison's, 311.
Pityriasis versicolor, treated by carbolic acid, 436.
Placenta: retained in abortion, 219; prævia, treatment of, 237; adherent, hour-glass contraction, hydrocephalus, followed by puerperal convulsions—recovery, 494.
Plantar muscle, spasm of, 450.
Plastic surgery, 445.
Pleuro-pneumonia, 29.
Pleurisy, cases of, 52.
Pneumonia, alcoholic treatment of, 172.
Pocket case for medicine for active physicians, 223.
Podophyllia, death from, 308.
Poison; action of Cobra, 176; carbolic acid as a, 489, 509.
Poisoning: by opium, 136; by antine, 139; the Gamble case, 382; by opium, atropia in, 369; from tincture of aconite root, 347; from very large doses of opium, belladonna and their alkaloids, treatment of, 444.
Poisonous; are locusts, 86, 179; articles in common use, 57; paper hangings, 75; dye stuffs, 387.
Population, increase of in the west, 353.
Position in poisoning by chloroform, 299.
Potash: permanganate of, 357; chlorate of, in dysentery, 519.
Potassium; and sodium, salts of, 75; bromide of, in puerperal mania, 77; do of in morning sickness, 211; do. in dysmenorrhoea, 489; do. in puerperal mania, 287.
Practice, cases from, 61, 76, 181.
Pregnancy, bromide of potassium in vomiting of, 211; whiskey for, 310; early, 428.
Presentation of superior extremity, 385.
Pretender, a, 119.
Prescriptions: repetition of by druggists without physicians' authority, 11, 473.
Princess Carlotta, 139.
Prize questions, 37.
Professional remuneration, 218.
Proprietary medicines, 246.
Propriety, doubtful, 502.
Providence, R. I., health of, 236.
Ptialism, 467.
Publications immoral, 404.
Puerperal: mania treated by bromide of potassium, 77; convulsions, 37, 420; convulsions following adherent placenta, etc., 484.
Pupil, artificial, 147.
Purpura, ergot in treatment of, 382.
Pylorus, scirrhus of, 78.
Pyrethrum for scabies, 423.

Q.

- Quacks in London, 449.
 Quarantine in Texas, 114.
 Question in ethics, 360.
 Questions, prize, 37.
 Queries, medico-legal, 444.
 Quinia, how to disguise the taste of, 40.
 Quinine pills, preparation of, 238.

R.

- Radius and ulna, resection of, 454.
 Rashes, medical, 232.
 Reception of Profs. PANCOAST and GROSS, 362.
 Rectum, discharge of fetus through, 356.
 Reduction, successful, of dislocated humerus of 4 months standing, 328.
 Relics, Phœnician, discovery of, 349.
 Remedies—vulnery, 135; for elephantiasis græcorum, 443.
 Remedy, a singular, 137.
 Remittent, yellow, or hæmaturic, 331.
 Retina—apoplexy of, 26; inflammatory softening of; atrophy of, 44; serous infusion into; plastic infusion into, 47; ophthalmoscopic character of diseases of, 161.
 Retinitis—apoplectic, 26; albuminuric, 28.
 Reply, an ant, 289.
 Resection—of entire wrist-joint, etc., 454; subperiosteal, 503.
